Product description:

Adhesive tape with indicator for sterilization, which attests to the happened process of sterilization.

Conform to ISO 11140-1 (Class 1).

Mono adhesive tape with a process indicator of steam sterilization (autoclave)

Adhesive tape with indicator for sterilization, fulfilling simultaneously the function of the adhesive from the packaging. The support is made from strong impregnated paper, semicrespata characteristics of adaptability.

The used adhesive, which when removed will not leave any residue, is of superior quality and is designed to withstand high temperatures as well as moisture, in addition, adheres perfectly to the most varied of materials (cloths, metals, plastic, no-woven, paper, etc.). The chemical indicators that are exempt from lead are sensitive to different parameters of the sterilization cycles. The color of the print on the back of the belt turns from light green to medium to dark green, as an evidence of exposure to a sterilization cycle of saturated steam.

According to the standard EN ISO 11140-1:2014 Type 1e1 (process indicators).
Individually packed to guarantee a perfect conservation.

Available in two different sizes:

Dim. L 50 mt x H 19 mm

Cf. 1 roll

Product features:

NSR - TYPE: tape sterilization

NSR - WIDTH: 19mm

NSR - LENGTH: 50m

NSR - AREA WRITABLE: nd

NSR - CODING COLOR: no

NSR - COMPATIBILITY: steam autoclave

NSR - COMPLIANCE: ISO 11140-1 (Class 1)

NSR - TEMPERATURE MAX: 134°C

NSR - MINIMUM TEMPERATURE: nd

NSR - APPLICATIONS: sterilization

NSR - MAIN FEATURES: adhesive tape with indicator for sterilization

NSR - OPTIONAL ACCESSORIES: no

NSR - RESISTANCE: heat

NRS - CAN BE USED ON: metal

NSR - CAN BE USED ON: plastic
